EDUCATION

Bachelor of Science in Computer Science
University of Tennessee, Knoxville

Expected 2023
GPA: 4.0/4.0

PROFESSIONAL EXPERIENCE

U.S. Army Special Operations – 75th Ranger Regiment
Savannah, GA

Jul 2015 – Oct 2019

Provided support for the main assault force through air and artillery fire support or medical evacuation. Required efficient communication and coordination with aircraft in a dynamic environment while moving with the assault force.

- Secret Security Clearance
- Graduated Ranger Assessment and Selection Program
- Worked in a Team Leader position that required training and coaching of soldiers to fit the Ranger standard
- Gave upwards of forty classes and presentations to peers and senior supervisors
- Worked in a Tactical Operations Center where working competently with the TOC team was key for successful fire support
- Responsible for thousands of dollars' worth of equipment without any damage or losses

COMMUNITY INVOLVEMENT

Engineering Without Borders, UTK Chapter
Personal Committee Vice Chair

Sept 2020 – Present

This organization solves problems for both its local community and abroad with multidisciplinary engineering projects.

- Helped lead and make critical decisions for the timely completion of projects.
- Currently we are designing a solar powered charging station which is to be installed at a local bus stop.

Hack4Impact, UTK Chapter
Bootcamp Member

Sept 2020 – Present

This organization solves problems for non-profit organizations via software solutions.

- My current role requires me to complete programming projects to learn the MERN tech stack and prepare to contribute on future projects.
